

When a tooth is decayed to the point where a filling will no longer predictably or adequately restore it, a crown is needed. Here at Imagine Dental we believe that every child deserves a beautiful smile.

Year after year, **NuSmile** Pediatric Crowns look better and last longer. Manufactured with only the highest quality materials, **NuSmile** crowns use the latest generation proprietary processes and patent pending technologies to ensure a long-lasting, great looking restoration every time.

NuSmile Signature crowns are anatomically correct, stainless steel crowns with a natural-looking, tooth-colored coating.

NuSmile ZR For an even better, more natural, aesthetically pleasing look ask about **NuSmile ZR**. These crowns are made with a material strength 9 times stronger than natural teeth.
